**Mill Green  
School**

16<sup>th</sup> September 2024

Dear parent/carer,

I am writing to advise you that our school currently has a young person who is receiving medical treatment for cancer. The young person is actively involved in the school community and recovering from treatments and their side effects.

As this young person has a compromised immune system and is more vulnerable to disease, it is important that you do not send your children to school if they are unwell with an infectious disease. For example, if your child has an infectious disease such as **measles, chickenpox or influenza**, your child should stay at home until no longer contagious. For more information about whether your child is to unwell for school, with reference to specific conditions, please visit <https://www.nhs.uk/live-well/is-my-child-too-ill-for-school/>

I would also appreciate it if you would notify school immediately if your child has an infectious disease. This will allow us to notify the parents of our young person with cancer, if necessary.

We appreciate your cooperation and ongoing support of the school. Please do not hesitate to contact me if you have any questions.

Yours sincerely,

Sean Lenahan  
Headteacher
